DETAILED ACTION

Continued Prosecution Application

1. The request filed on 08/11/99 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 08/858,245 is acceptable and a CPA has been established.

An action on the CPA follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 4-10 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As to independent claims 4 and 10, the original specification fails to disclose the limitations “regardless of the measurement value” as recited in claim 4 and “regardless of the strength of pilot” as recited in claim 10. Applicant’s attention is directed to the original specification, page 9 line 29 to page 10 line 6, wherein pilot strength is measured and transmitted to the base station only if the

Art Unit: 2745

pilot strength satisfies three conditions, *not regardless of the measurement value as recited in the claims.*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 8-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 8, the recitation "said at least one base station" lacks clear antecedent basis.

As to claim 9, the recitation "said at least one base station" lacks clear antecedent basis.

Response to Arguments

6. Applicant's arguments with respect to claims 4-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
